Homeless Shelters
Retirement Homes
Dormitories
Animal Kennels
Churches

HOW MUCH WILL I NEED?

Furniture & Mattresses

A 16 oz. bottle treats small to medium-sized furniture and other household items.

Entire Home & Facilities

When disinfecting entire rooms and complete sets of furniture, use a gallon. One gallon treats approximately 1500 sq. ft.

HOW TO USE STERIFAB

Pre-Application

- Sterifab is ready to use and does not require any dilution or preparation.
- Please be sure to shake well before use.
- Clean all surfaces and objects thoroughly before treatment.

During Application

- Spray surfaces generously to provide a fine mist.
- When using either the Continuous Action or Trigger Spray stand one foot from the surface being sprayed.

Post-Application

- Allow treated items or surfaces to dry before use.
- Hard surfaces may be wiped dry after 15 minutes.

IMPORTANT

The above are estimates. Yield may differ due to the type of sprayer and spray pattern.

Sterifab should never be sprayed on people, animals, clothing, shoes or cooking utensils.

Sterifab can be applied to almost all inanimate (non-living) surfaces besides waxed surfaces.
